

GLOBAL DISTRIBUTION SYSTEM

In1 Solutions, in association with HotelREZ, offers you connectivity to all major Global Distribution Systems (GDS) and 100+ International Websites.

Global Distribution System (GDS) and International Portal Connectivity

In1 Solutions, in association with HotelREZ, offers you connectivity to all major Global Distribution Systems (GDS) and 100+ International Portal websites. Your property will be fully represented on the four GDSs – Galileo, Amadeus, Sabre and Worldspan and Internet Distribution (IDS) sites such as Expedia, Lastminute and Priceline.

GDS connectivity can open up your hotel to a wide range of potential new bookers that would not otherwise have access to your hotel's rates and availability, such as corporate bookers or agencies who work with preferred partners and leisure websites that only include hotels via this channel.

What does this mean?

Your property will be linked to over 750,000 travel agents and distributors worldwide, providing access to all four major GDS systems and over 100s of international portal websites. This offer allows you to reach an even wider global market and ensures ease of management and reduced time and overhead.

We put a strong focus on the initial setup of each property and how it appears in the GDS ensuring that your property is fully and accurately represented and bookable! You will benefit from HotelREZ's Global Preferred Partnerships with Travel Management Companies and additional marketing opportunities. We are confident that we have concluded an agreement with a partner that we know will deliver the best opportunity of maximizing bookings.

We are able to offer you a range of options to deliver more and higher value business to your hotel; from participation in our rate strategy offering corporate RFP's an incentive to book your hotel and niche marketing programmes to premium listings on consumer and trade websites, preferred partnerships with consortia, together with opportunities to attend trade shows and call centre visits.

We also offer REZmedia and your hotel can store and manage your digital media assets in one place, including still images, virtual tours, video and Flash. From one simple interface you can edit, sequence and delete images as well as add captions and categories in multiple languages. At a simple click of a button, your hotel can replace or add an image, video or virtual tour to its display on hundreds of third-party travel web sites.

In summary

- Link to all GDSs worldwide and international travel websites
- Availability and rates automatically linked to IMC
- Confirmed bookings delivered straight into the IMC (or PMS if integrated with our booking engine)
